1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 12, line 9, change "extension" to "execution".

In claim 13, line 9, change "extension" to "execution".

In claim 14, line 9, change "extension" to "execution".

In claim 15, line 9, change "extension" to "execution".

In claim 16, line 9, change "extension" to "execution".

In claim 17, line 10, change "extension" to "execution".

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a conditional branching system using the upper and lower bits of the fourth address as in claims 12 and 14 and the lower bits of the fourth address as in claims 13 and 15. As for claim 17, the prior art of record did not teach "the instruction memory comprising a memory array comprising a plurality of memory cells each specified by upper bits and lower bits of a first address, the instruction memory associating, with a second address, an instruction program having a plurality of instruction codes, the upper bits and the lower bits of the second address being designated in the memory array to perform the instruction program read out from the memory array of the instruction memory, said method comprising: comparing a conditional branch instruction address and a branch target instruction address, each address specifies an instruction program stored in a memory array of an instruction

memory, determining whether upper bits of the conditional branch instruction address and the upper bits of the branch target address differ, and re-mapping the branch target instruction address so that no carry into the upper bits is caused, thereby optimizing arrangements of the conditional branch instruction address and the branch target instruction address, when the upper bits of the conditional branch instruction address and the branch target instruction address differ."

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication should be directed to William M. Treat at telephone number (571) 272-4175.
